Hydropower Africa 2011

- Pour le site - Agenda des événements -

Date de mise en ligne : Monday 19 September 2011

OIEau - IOWater - OIAgua

2011 marks the fourth anniversary of Hydropower Africa. Building on the success of the 2010 event, which attracted more than 300 delegates from over 30 countries, Hydropower Africa 2011 will once again highlight investment opportunities for hydropower development in Africa and incorporate additional programme tracks focusing on:

Financing and funding of projects Appropriate dam engineering and project management Maintenance and refurbishment Water resource management Environmental and social impact assessments Technical skills development and training to effectively operate and maintain hydropower plants New planned projects and updates on existing projects of note
