Improving Cooperation in Water Research across Europe ; The IWRM-Net Final Conference

- Pour le site - Agenda des événements -
Date de mise en ligne : Wednesday 1 December 2010

OIEau - IOWater - OIAgua

IWRM-Net is an European Research Area Network aiming to bridging the gaps between national research programmes dealing with Integrated Water Resource Management. At our final event "Improving Cooperation in Fresh Water Research across Europe", IWRM-Net partners would like to share experience acquired over the five years of the project and develop some wider reflection at the European and trans-national levels.

Wed 13:00 - High level discussion on water research policy and implementation needs

Thurs 09:00 - New developments in water research and research management tools

Fri 09:00 - Hydromorphological and governance developments (optional workshops)

please sent back your registration form to conf_IWRMNet@oieau.fr
