21st ICID Congress on Irrigation and Drainage : "Water Productivity towards Food Security"

- Pour le site - Agenda des événements -
Date de mise en ligne : samedi 15 octobre 2011

OIEau - IOWater - OIAgua

21st ICID Congress : Water Productivity towards Food Security

Question 56 : Water and Land Productivity Challenges

Question 57 : Water Management in Rainfed Agriculture

Special Session : Modernization of Water Management Schemes

Symposium : Climate Change Impacts on Soil and Water Resources

Seminar : Possibilities of Using Traditional Methods in Modern Water Management Systems

8th International Micro-Irrigation Congress : Innovation in Technology and Management of Micro irrigation for Enhanced Crop and Water Productivity

The sub-topics and scope of all above events are given in the Call for Papers which is available on the Congress Website (www.icid2011.org). The time schedule for submission and selection of papers along with guidelines for authors are announced in the "Call for Papers".

I believe that the setup of the 21st ICID Congress, as well as, 8th International Micro-Irrigation Congress with the selected topics and their scope, will offer a splendid opportunity to present and discuss new developments and results for sustainability in the field of irrigation and drainage. All potential authors are invited to contribute their valuable papers to the Congress and other events.
