**OIEau - IOWater - OIAgua**

---

A large part of the programme will be taken up by group discussions giving everybody a possibility to share their experiences with others. We believe in building networks between authorities – we have a lot to learn from each other.

The meeting is an official meeting during the Swedish Presidency of the EU. Climate change and marine environment in particular will be at the top of the agenda for the Swedish Presidency. The Water Framework Directive has a strong connection to both these issues.
