Ozone and UV: Leading-edge science and technologies

- Pour le site - Agenda des évènements -

Date de mise en ligne : Monday 23 May 2011

OIEau - IOWater - OIAgua

The Theme of the World Congress 2011 covers a wide range of topics on fundamentals, engineering and applied aspects of oxidation techniques involving ozone and related oxidants and/or UV techniques with the aim to highlight the key issues and the latest advances from scientific to operational disciplines. It reflects the IOA and IUVA commitment to consider and discuss directions able to deliver innovative, competitive and sustainable solutions which address current and next challenges in the fields of environmental and human health protection, industrial manufacture and conditioning, medical therapy.
