V International Symposium On Transboundary Waters Management

- Pour le site - Agenda des évènements -

Date de mise en ligne : Sunday 2 October 2011

OIEau - IOWater - OIAgua

The main topic of the symposium is Transboundary Surface Waters and Shared Aquifers. The aims of the Symposium are:

1. To assess the state of the art and the progress recently made in the sustainable management of transboundary waters by different disciplines such as law, socio-economics and water science;
2. To promote interdisciplinary approaches for integrated transboundary water resources management.
3. To review current major international programmes concerned with the assessment and management of transboundary water resources.
