Nicaragua : Preparation to the concession of water supply utilities' management

- IOWater - Our projects : news and update -

Date de mise en ligne : 2008

OIEau

IOWater, associated with BCEOM, has prepared the terms of reference for the concession of the management of such a utility to an international operator on behalf of the Nicaraguan Water Supply and Sanitation Utility with funds from the Inter-American Development Bank.

It mainly aims to reinforce the corporate management of this utility and its suitable equipment with computers . This study carried out by the BCEOM-IOWater group led to an assessment of the current situation with regard to the management of subscribers, equipment, etc.
