### 13th Annual Network Conference (and EU LIFE+ RESTORE Project Workshop)

Large catchment-scale plans are now being implemented, though delivery of river restoration measures which is happening increasingly at the local scale. With building momentum and pressure to get results quickly, there is an urgent need to disseminate practical examples of both the nuts and bolts of what is being implemented on the ground, and how to coordinate this work effectively.

For 2012's conference, we are seeking high quality presentations on all aspects of practical solutions concerning :

- - The processes of managing partnerships and projects -
- - Getting your feet wet – what goes on in the channel -
- - Valuing the benefits of river restoration -
