- contenu - Actes des conférences internationales - 2012 - 6ème Forum Mondial de l'Eau - Sessions de l'OIEau et de ses partenaires -

Date de mise en ligne : lundi 5 mars 2012

OIEau

UNESCO and INBO coordinators of Priority for Action (PA) 1.5 : **"Contribute to cooperation and peace"** for better management of transboundary basins.

- [Introduction session](#)

- 1.5.1 - Increase the political acceptance and implementation of the principles of existing international, regional and local water law (i.e. principles, customary law, state practice, conventions, bilateral or multilateral agreements, significant judicial decisions and writings, etc.) in the international community
- 1.5.2 - Increase the number of new agreements and revise/enhance the quality of existing agreements related to transboundary surface and/or groundwater
- 1.5.3 - By 2020, develop or improve cooperation mechanisms for joint management of transboundary aquifers considering the UNGA Resolution 63/124 on the Law of Transboundary Aquifers
- [1.5.4 - By 20XX, increase the number of institutions within transboundary basins and/or aquifer systems capable of ensuring sustainable management of water resources](#)
- 1.5.5 - By 20xx, in local and international conflict situation develop pragmatic solutions to water related issues through cooperation and dialogue involving the principal actors at the level of the conflict
- 1.5.6 - By 20xx, create sustainable financial mechanisms to finance transboundary water institutions
- [1.5.7 - By 20XX, develop mechanisms to share and monitor information at transboundary level especially on : \(i\) Scientific and social data for information systems : contribution to an online inventory and establishment of a water observatory and \(ii\) Indicators and guidelines for programmes monitoring the quality of cooperation and impact of the lack of access to water on cooperation and peace-building](#)
- 1.5.8 - By 20xx, contribute to increasing the training in transboundary water management and conflict resolution of a number of key groups such as 1. Decision makers, 2. Senior and high-level water professionals, 3. Junior water professionals, 4. Media professionals and 5. Public at large
- [1.5.9 - By 20xx, establish and support programmes of 'peer-to-peer' twinning between basin organizations, water centres and other concerned institutions, to foster knowledge and exchange](#)

- [Synthesis session](#)
