Side event : "Shifting sustainability horizons : Making or Painting the Economy Green"

- contenu - Actes des conférences internationales - 2012 - Rio + 20 -
Date de mise en ligne : jeudi 7 juin 2012

OIEau

The side event organized by **Green Cross**, The **Club of Rome** and **Earth Charter International** will see distinguished personalities and experts from the worlds of politics, business and civil society show, on the basis of learnings from the last 20 years, the opportunities and co-benefits from effective action **to avert the threats of dangerous climate change and environmental degradation** by moving onto a path of truly sustainable development.

Most importantly, the panel will suggest broad lines of priority and action **to preserve a stable climate and viable environment** by building **the new resource-efficient, sustainable societies and economies of the future**.
