A "confined spaces" training unit "unique in France"

- IOWater - Our projects : news and update -

Date de mise en ligne : vendredi 4 janvier 2013

OIEau

Identically reproducing a sewer system that can be visited, the IOWater educational unit, with a total length of 84 m, is made up of 5 sections with a diameter from 1,600 mm to 2,000 mm, and a pumping station. It allows the practical and safe training of trainees for them to acquire good behavior during work preparation and implementation.
