Mexico - The Ayuquila-Armería pilot River Basin

- IOWater - Our projects : news and update -

Date de mise en ligne : mercredi 29 mai 2013

OIEau

The French Water Agencies Adour- Garonne and Seine-Normandy, which have interesting similarities with the Mexican Basin Organizations, started a cooperation project to improve the river basin management processes undertaken in the country. The Ayuquila Armeria River Basin was chosen because of its size, ideal for experimentation, the importance of its challenges but also its lead in terms of participation and initiatives for the conservation of the environment. IOWater is the operator of this cooperation program and works with local structures.
