Explore 2070 - Climate change and its impact on water resources

- IOWater - Our projects : news and update -

Date de mise en ligne : vendredi 3 mai 2013

OIEau

"Explore 2070" is a project of the French Ministry of Ecology, which aims to identify possible scenarios for the impact of climate change by 2070. IOWater is a partner of the group responsible for implementing the integrative model that provides the link between topics and access to results.
