EMWIS - Better management of water-related knowledge in the Mediterranean

- IOWater - Our projects : news and update -

Date de mise en ligne : samedi 16 février 2013

OIEau

Under the impulse of the Union for the Mediterranean (UfM) Secretariat, the promoters of three regional informative projects gathered to prepare a unifying and ambitious project : the Lebanese Ministry of Energy and Water, the Arab League and EMWIS, the Euro-Mediterranean Water Information System. This new project is made of 4 components : regional coordination, strengthening of National Water Information Systems (NWIS), regional training programs on water data management and demonstration of data automation and reporting.
