Carteau : Panorama of R&D on water & aquatic environments

- IOWater - Publications - Leaflets and presentation brochures -

Date de mise en ligne : mardi 25 juin 2013

OIEau

- The **Carteau** site lists the **R&D teams and programmes** in the fields of water and aquatic environments working in continental France and in the overseas departments. The site is **to facilitate the formation of R&D partnerships**, and improve the visibility of the R&D system as a whole (programmes, projects, entities, etc.). The Carteau site was created by [Onema](http://onema.fr), the National agency for water and aquatic environments. [IOWater](http://iowater.org), the International office for water, manages and updates the site.
