Second Workshop on Transboundary Flood Risk Management

- contenu - Agenda des évènements -

Date de mise en ligne : jeudi 19 mars 2015

OIEau

This workshop will bring together professionals from all over the world working on transboundary flood risk management and will provide a platform to :

- Exchange experiences concerning the latest developments and the progress made in the transboundary case studies since the 2009 Workshop ;
- Identify relevant problems, successful strategies for transboundary flood risk management and new cooperation models and develop new ideas and approaches ;
- Present best practice examples of successful transboundary cooperation on flood risk reduction and management ;
- Analyse lessons learned from the latest flooding events in 2014 (e.g. in the Danube River Basin) ;
- Consider the experiences made in the European Union during the implementation of the EU-Flood Directive and the current work on flood risk management plans ; and
- Review and update the recommendations of the 2009-workshop.
