OIEau

For over 20 years, **the International Office for Water acts for water in the world** with operations of general interest to the public and private organizations in this field : training, information, documentation, institutional engineering and international cooperation.

IOWater accompanied you with pleasure throughout the year 2013 and **sends its best wishes for the new year**. In 2014, the International Office of Water will continue to be involved in the management and protection of water resources, in France, in Europe and in the whole world.
