The Water Agencies were established in Burkina Faso by the orientation law on water management of February 2001. Since 2013, an institutional cooperation project has associated the Loire-Brittany Water Agency with the White Volta Basin Board in Ghana, downstream continuity of the Nakanbé River Basin. In addition to direct collaboration between agencies, these institutional cooperation projects strengthen the policy framework and facilitate the implementation of common cause projects in connection with the Water Development and Management Plans of the concerned river basins.
