IOA World Congress and exhibition 2015 Ozone and advanced oxidation - Leading Edge Science and Technologies

Date de mise en ligne : dimanche 28 juin 2015

ements -

OIEau

The Theme of the World Congress 2015 covers a wide range of topics on fundamentals, engineering and applied aspects of oxidation techniques involving ozone and advanced oxidation systems with the aim to highlight the key issues and the latest advances from scientific to operational disciplines. It reflects the IOA commitment to consider and discuss directions able to deliver innovative, competitive and sustainable solutions which address current and next challenges in the fields of environmental and human health protection, industrial manufacture and conditioning, medical therapy.

For decades, IOA World Congresses bring together scientists, researchers, students, engineers, users, technical experts, consultants, manufacturers and suppliers of systems, representatives of leading organizations from various disciplines.
