Benin - Togo: Mono River Basin

The International Office for Water and the Water-Solidarity Program are implementing a project that aims to help the new Mono Basin Authority, to build experts' capacity and support planning for water resources management in this transboundary basin, under the partnership started by the Rhone-Mediterranean- Corsica Water Agency with Benin and Togo.

The priority goal of this project is also to facilitate the implementation of solidarity projects under the French Law of 2005 on decentralized cooperation in the field of water and sanitation.
