The six research projects on integrated water resources management funded in 2009 by the European IWRM-Net consortium are now complete !

The final conference was held on 21 - 22 October in Brussels at the Delegation of the High Council of Scientific Research (CSIC) and was attended by about sixty participants.

Water scarcity management, adaptation to climate change, valuation of ecosystem services, water markets ... Researchers, policy-makers and managers of water resources and aquatic environments were invited to discuss the main results of the projects and their implications for public action around two thematic sessions :

- Management of water resources and aquatic environments : innovative solutions for adapting to climate change,
- Socioeconomic aspects of the management of water resources and aquatic environments. The summary of this conference is available online at : www.iwrm-net.eu
