**In this catalogue 2014, the NWTC proposes 53 training modules, divided into 70 training courses on the following topics :** <o:p></o:p>

Regulation on Classified Facilities for Environmental Protection, self-monitoring, hygiene and safety, pollution removal on polluted sites, etc. ; <o:p></o:p>

Drilling, pumping, maintenance and automation ; <o:p></o:p>

Production and distribution of industrial water, fire fighting system, internal network and health protection. <o:p></o:p>

Treatment of industrial effluents, odor removal and sludge treatment, valorization of biogas exploitation of a unit ; <o:p></o:p>

Effluent treatment in surface hardening ; <o:p></o:p>

Sustainable development, energy savings, carbon footprint, and industrial waste characterization and management. <o:p></o:p>

**The emergence of new professions, needing specialized skills, requires well-trained and qualified staffs.** <o:p></o:p>

Thus for 2014, NWTC has included two new courses in the catalogue carried out in cooperation with VWR International : high-performance liquid chromatography (HPLC), laboratory practice : the basics ; introduction to ion chromatography. <o:p></o:p>
