Training in 2014 on "Waste, Environment, Sustainable Development"

- IOWater - Our projects : news and update -

Date de mise en ligne : lundi 25 février 2013

OIEau

In its 2014 catalogue on "Waste, Environment and Sustainable Development, the NWTC proposes 47 training programs organized in 51 training courses on the topics : <o:p></o:p>

- **Waste** : regulation, service management, hygiene and safety, communication, collection and selective sorting, maintenance of facilities, treatment and reuse of waste and wastewater treatment sludge, leachate, biogas, odor treatment, etc. ; <o:p></o:p>
- **Air** : measurement of pollution in open air ; Noise : noise at work in water and sanitation utilities ;. <o:p></o:p>
- **Sites and soils** : pollution appraisal and removal from polluted sites and soils. <o:p></o:p>
- **Energy** : electric energy savings, strategy for the use of renewable energy ; <o:p></o:p>
- **Sustainable development** : carbon footprint, sustainable development approach, sustainable purchase, integration of hydraulic structures into the landscape, storm water recovery. <o:p></o:p>

In 2014, NWTC is proposing a training program for operators of Waste Storage Facilities (WSF). <o:p></o:p>

- This program includes the 4 following training courses : <o:p></o:p>
- Operator of a Non Hazardous Waste Storage Facility (NHWSF) ; <o:p></o:p>
- Biogas : adjustment and optimization of a NHWSF ; <o:p></o:p>
- Valorization of biogas ; <o:p></o:p>
- Leachate treatment in a NHWSF <o:p></o:p>
