Loire River Basin : Implementation of a management chart on Research-Development-Innova tion

Date de mise en ligne : dimanche 15 mars 2015

- IOWater - Our projects : news and update -

OIEau

The "2014 management chart on Research-Development-Innovation (RDI) on integrated management of the Loire Basin and its tributaries" was implemented by IOWater on behalf of the Loire Public Body.

It provides an analysis of the RDI status regarding the river and its tributaries. The study focused on the structuring of research especially through the stakeholders and donors involved.

Research capacity indicators compared with bibliometric analysis indicators have shown the importance of European ERDF and basin funding (Loire Public Body and Loire-Brittany Water Agency).
