In September 2015, IOWater and FIIAPP (Fundación Internacional y para Iberoamérica de Administración y Políticas Públicas) organized a study visit in Spain and France for a delegation from Tajikistan and two representatives of the World Bank.

The delegation met the key administrations and organizations in charge of integrated water resources management, irrigation and water information systems.

The visit allowed presenting the implementation of integrated basin management in the European Union, its legal and institutional bases, the methodology applied to work out Basin Management Plans, to outline the management of irrigation systems and the role of water users' associations as well as the use of economic mechanisms to ensure financing.
