Water Security for Policy Makers and Practitioners Short Course

- contenu - Agenda des évènements -

Date de mise en ligne : lundi 19 mai 2014

OIEau

Participants will acquire a variety of tools and analytical frameworks from a variety of disciplines and an extended understanding of this key national and global issue. They will leave the course with an ability to critically assess and address current water security policy, to gain an appreciation of the relations between water security and energy, climate, food, human and national security. Participants will also substantially develop their networks and resource bases.
