

Research networking and research demand improvement – IWRM-Net

Natacha Amorsi - OIEAU

SESSION 6.1.1 KNOWLEDGE FOR ALL, ALL FOR KNOWLEDGE

IWRM-Net in a nutshell

Who are we? Open network of research programmes managers (IWRM) composed of 20 members from 14 member states

Our aims, in the context of WFD implementation

- A forum for prospective and co-ordination of research needs and programmes
- The facilitator between research and water policy makers and managers to bridge the communication gap.

Current work

- Finalise the content of second trans-national call to be launched in June 2009

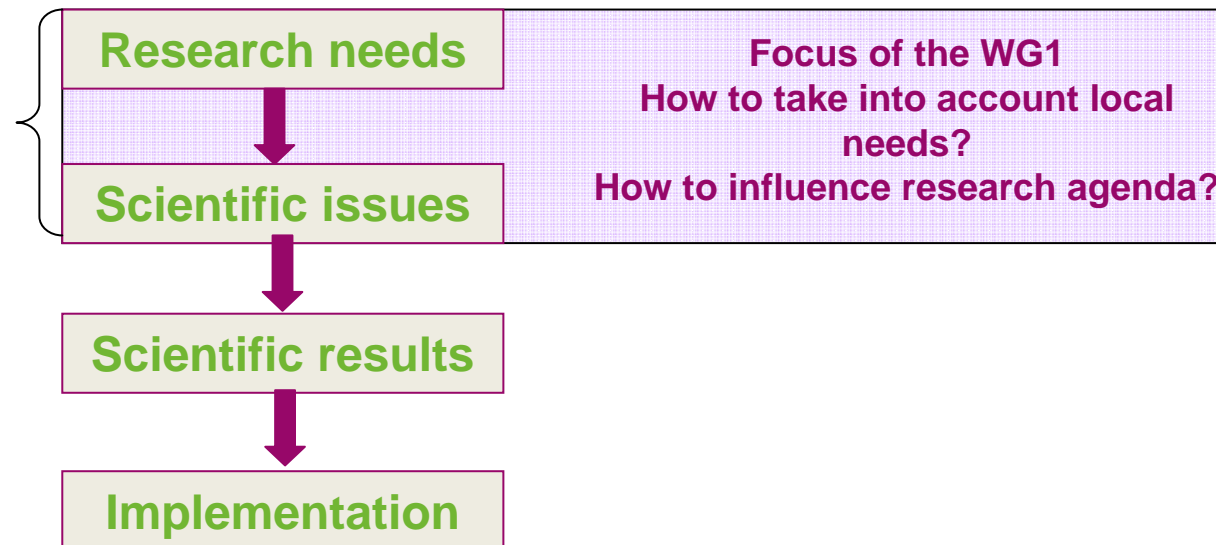

Research networking and research demand improvement – IWRM-Net

What kind of knowledge will we address in the working group?

- gathered and produced at the different phases of research programme
- shared on good practices to implement trans-national programme

- IWRM-Net Research agenda
- Scientific specification for our calls

IWRM-Net Capacity building
