Session 6.1.1

Knowledge for All
All for Knowledge

Feshane, 20th March

ANSWERING GRASSROOTS PRIORITIES

SHARING EXCHANGING TRANSFERING

LEARNING CAPACITY BUILDING

KNOWLEDGE

PROGRESS IN WATER MANAGEMENT

The Five Key Questions

- Improving the process for identifying demand for specific research needs at local level ? Influence of stakeholders on the research agenda?

- Approaches for collaboration between scientists /practitioners?

- Tools or mechanisms available for improved dissemination, sharing and transfer of knowledge and information to the public and stakeholder groups?

- Ensure the uptake of new knowledge and the appropriate scale of application?

- Create a learning culture in water user communities in which everyone takes the responsibility of creating, fine tuning and adopting knowledge
